The third-party applications provided with your device may have been created and may be owned by persons or entities not affiliated with or related to Nokia. Nokia does not own the copyrights or intellectual property rights to the third-party applications. As such, Nokia does not take any responsibility for end-user support, functionality of the applications, or the information in the applications or these materials. Nokia does not provide any warranty for the third-party applications. BY USING THE APPLICATIONS YOU ACKNOWLEDGE THAT THE APPLICATIONS ARE PROVIDED AS IS WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. YOU FURTHER ACKNOWLEDGE THAT NEITHER NOKIA NOR ITS AFFILIATES MAKE ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF TITLE, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR THAT THE APPLICATIONS WILL NOT INFRINGE ANY THIRD-PARTY PATENTS, COPYRIGHTS, TRADEMARKS, OR OTHER RIGHTS.

Your device may have preinstalled bookmarks and links for third-party internet sites. You may also access other third-party sites through your device. Third-party sites are not affiliated with Nokia, and Nokia does not endorse or assume liability for them. If you choose to access such sites, you should take precautions for security or content.

The availability of particular products and applications and services for these products may vary by region. Please check with your Nokia dealer for details, and availability of language options.

Some operations and features are SIM card and/or network dependent, MMS dependent, or dependent on the compatibility of devices and the content formats supported. Some services are subject to a separate charge.

Copyright protections may prevent some images, music (including ringing tones), and other content from being copied, modified, transferred, or forwarded.

Refer to the user guide for other important information about your device.

ISSUE 1 EN

Share online

You can share your images and video clips in compatible online albums, weblogs, or other compatible online sharing services on the web. You can upload content, save unfinished posts as drafts and continue later, and view the content of the albums. The supported content types may vary depending on the service provider.

Get started

You must subscribe to the service with an online image sharing service provider. You can usually subscribe to the service on the web page of the service provider. Contact your service provider for details on subscribing to the service. For more information on compatible service providers, see www.nokia.com/support.

When you open the service for the first time in the Online share application, you are prompted to create a new account and define the user name and password for it. To access the account settings later, select **Open online service > Options > Settings**.

Upload files

In **Gallery**, select **Images & videos**, the files you want to upload, and **Options > Send > Post to web**. You can also access online services from the main camera.

In **Select service**, to create a new account for a service, select **Options > Add new account** or the service icon with **Create new** in the services list. If you have created a new account offline or modified an account or service settings through a web browser on a compatible PC, to update the services list in your device, select **Options > Retrieve services**. To select a service, press the scroll key.

When you select the service, the selected images and videos are shown in the edit state. You can open and view the files, reorganise them, add text to them, or add new files.

To cancel the web upload process and save the created post as a draft, select **Back > Save as draft**. If the upload has already begun, select **Cancel > Save as draft**.

To connect to the service and upload the files to the web, select **Options > Post to web**, or press the call key.

Open online service

To view uploaded images and videos in the online service and draft and sent entries in your device, select **Images & videos > Options > Open online service**. If you create a new account offline or modify an account or service settings through a web browser on a compatible PC, select **Options > Retrieve services** to update the services list in your device. Select a service from the list.

After you open a service, select from the following:

Open in Web browser—to connect to the selected service and view the uploaded and draft albums in the web browser. The view may vary depending on the service provider.

Drafts—to view and edit the draft entries and upload them to the web

Recent posts—to view the 20 latest entries created through your device

New post—to create a new entry

The available options may vary depending on the service provider.

Online share settings

To edit the settings, in **Online share**, select **Open online service > Options > Settings**. Scroll to the settings you want, and press the scroll key.

My accounts

In **My accounts**, you can create new accounts or edit existing accounts. To create a new account, select **Options > Add new account**. To edit an existing account, select an account and **Options > Edit**. Select from the following:

Account name—to enter the desired name for the account

Service provider—to select the service provider you want to use. You cannot change the service provider for an existing account; you must create a new account for the new service provider. If you delete an account in **My accounts**, the services related to the account are also deleted from your device, including the sent items for the service.

User name and Password—to enter the user name and password you created for your account when you registered to the online service

Image posting size—to select the size in which the images are uploaded to the service

Application settings

Display image size—to select the size in which the image is shown on the display of your device. This setting does not affect the upload image size.

Display text size—to select the font size for text you write

Advanced

Default access point—To change the access point used to connect to the online service, select the access point you want.

Service providers

Service providers—To view or edit service provider settings, add a new service provider, or view details of a service provider. If you change the service provider, all account information for the previous service provider is lost. You cannot change the settings of predefined service providers.
